

## Reminders on Keeping our Dining Locations Safe

**There are 13 Sodexo operated dining locations on the University of Vermont campus that serve over 15,000 customer transactions on a daily basis. We need your help to keep our dining locations as safe as possible.**

**Here are some reminders of things you can do to keep the dining areas safe:**

- Have a supply of fluids and light snacks in your room. See our Influenza Resources: *Dining When You Are Ill* for examples.
- If you are experiencing influenza symptoms do not come to a dining location. Contact your RA or visit our website at [uds.uvm](http://uds.uvm) to obtain a sick tray form.
- Handwashing is the most important tool we have to help reduce the spread of H1N1. Please wash your hands as often as possible for at least 20 seconds, using a paper towel to turn the faucet on and off.
- Utilize the hand sanitizer provided at the entrance of the dining halls and in the restrooms.
- Please keep your student ID clean and sanitized on a daily basis. Don't put your ID in your mouth.
- Please do not reuse plates when returning to the line for additional items. Take a clean plate to prevent cross contamination.
- Please be sure to always use the utensils provided for the food. Never reach for food or cookies with your bare hands.
- Don't share food by eating off the same plate or sharing the same glass.

**By following these simple guidelines, we can help keep dining establishments safe. If you have any questions, feel free to email us at the UDS contact link on our website or call our administrative offices at 656.4664.**

Sincerely,  
Melissa Zelazny, RD  
General Manager
